Finasteride EP Impurity B

CAS 103335-41-7 · CATO catalogue no. C4X-110311

Structure - for identification

Molecular formula	C20H29NO3
Molecular weight	331.45
Appearance	White Powder
Storage	2 degC ~ 8 degC
Purity	Typical 98.4%
Assay / content	96.5%
HS code	2937.29.00.99
Country of origin	China
InChIKey	WMSQGMYJYBSBKA-ALHYADCGSA-N

About this standard

Finasteride EP Impurity B, CAS 103335-41-7, C20H29NO3 reference standard from CATO. Batch COA and MSDS available, shipped worldwide.

Pack sizes and lead time

5 mg	In stock
10 mg	In stock
25 mg	In stock

Quantities above the listed pack sizes are quoted on request. Prices are quoted per enquiry - no price list is published on this site.

Documentation on file

- Certificate of analysis - issued per lot, with the analytical basis for the assigned content or purity.
- Safety data sheet - supplied for the catalogue item and used for the transport classification.
- Chromatograms or spectra - tell us what your method or filing needs and the quotation will state what can be provided.

How to order

Send the catalogue number (C4X-110311), the pack size and the quantity to chao.lu@cato-chem.com. The reply covers availability, lead time, documentation and shipping for the specific lot, usually within one working day.
