Progesterone-d9

CAS 15775-74-3 · CATO catalogue no. C4X-15021

Structure - for identification

Molecular formula	C21H21D9O2
Molecular weight	323.52
Appearance	White to Off-White Solid
Storage	-20 degC+/-5 degC
Purity	Typical 97%
Country of origin	China
InChIKey	RJKFOVLPORLFTN-PQIPVKAESA-N

About this standard

Progesterone-d9, CAS 15775-74-3, C21H21D9O2 reference standard from CATO. Batch COA and MSDS available, shipped worldwide.

Pack sizes and lead time

25 mg	10 days
100 mg	10 days

Quantities above the listed pack sizes are quoted on request. Prices are quoted per enquiry - no price list is published on this site.

Documentation on file

- Certificate of analysis - issued per lot, with the analytical basis for the assigned content or purity.
- Safety data sheet - supplied for the catalogue item and used for the transport classification.
- Chromatograms or spectra - tell us what your method or filing needs and the quotation will state what can be provided.

How to order

Send the catalogue number (C4X-15021), the pack size and the quantity to chao.lu@cato-chem.com. The reply covers availability, lead time, documentation and shipping for the specific lot, usually within one working day.
