Riboflavin EP Impurity C

CAS 2535-20-8 · CATO catalogue no. C4X-18193

Structure - for identification

Molecular formula	C13H18N4O6
Molecular weight	326.31
Appearance	Yellow Solid
Storage	-20 degC+/-5 degC
Purity	Typical 98.458%
Assay / content	98%
HS code	2936.23.00.00
Country of origin	China
InChIKey	SXDXRJZUAJBNFL-XKSSXDPKSA-N

About this standard

Riboflavin EP Impurity C, CAS 2535-20-8, C13H18N4O6 reference standard from CATO. Batch COA and MSDS available, shipped worldwide.

Pack sizes and lead time

5 mg	In stock
10 mg	In stock
25 mg	In stock

Quantities above the listed pack sizes are quoted on request. Prices are quoted per enquiry - no price list is published on this site.

Documentation on file

- Certificate of analysis - issued per lot, with the analytical basis for the assigned content or purity.
- Safety data sheet - supplied for the catalogue item and used for the transport classification.
- Chromatograms or spectra - tell us what your method or filing needs and the quotation will state what can be provided.

How to order

Send the catalogue number (C4X-18193), the pack size and the quantity to chao.lu@cato-chem.com. The reply covers availability, lead time, documentation and shipping for the specific lot, usually within one working day.
