Cyanocobalamin EP Impurity E (8-epi-cyanocobalamin)

CAS 41325-63-7 · CATO catalogue no. C4X-18747

Structure - for identification

Molecular formula	C63H88CoN14O14P
Molecular weight	1355.37
Appearance	Red Color Solid
Storage	-20 degC+/-5 degC
Purity	Typical 99.37%
Assay / content	98.6%
HS code	2936.26.00.00
Country of origin	China
InChIKey	FDJOLVPMNUYSCM-KYGGNWNPSA-L

About this standard

Cyanocobalamin EP Impurity E (8-epi-cyanocobalamin), CAS 41325-63-7, C63H88CoN14O14P reference standard from CATO.

Pack sizes and lead time

10 mg	10 days
25 mg	10 days

Quantities above the listed pack sizes are quoted on request. Prices are quoted per enquiry - no price list is published on this site.

Documentation on file

- Certificate of analysis - issued per lot, with the analytical basis for the assigned content or purity.
- Safety data sheet - supplied for the catalogue item and used for the transport classification.
- Chromatograms or spectra - tell us what your method or filing needs and the quotation will state what can be provided.

How to order

Send the catalogue number (C4X-18747), the pack size and the quantity to chao.lu@cato-chem.com. The reply covers availability, lead time, documentation and shipping for the specific lot, usually within one working day.

CATO Research Chemicals Inc. (Guangzhou CATO Technology Co., Ltd.)
