Glycyrrhizic Acid Impurity 17

CAS 2919137-39-4 · CATO catalogue no. C4X-253717

Structure - for identification

Molecular formula	C42H62O17
Molecular weight	838.93
Storage	2 degC ~ 8 degC
Purity	Typical 97.357%
HS code	2938.90.90.40
Country of origin	China
InChIKey	WBQVRPYEEYUEBQ-WUDDUMDVSA-N

About this standard

Glycyrrhizic Acid Impurity 17, CAS 2919137-39-4, C42H62O17 reference standard from CATO. Batch COA and MSDS available, shipped worldwide.

Pack sizes and lead time

10 mg	10 days
25 mg	quoted on enquiry
50 mg	10 days

Quantities above the listed pack sizes are quoted on request. Prices are quoted per enquiry - no price list is published on this site.

Documentation on file

- Certificate of analysis - issued per lot, with the analytical basis for the assigned content or purity.
- Safety data sheet - supplied for the catalogue item and used for the transport classification.
- Chromatograms or spectra - tell us what your method or filing needs and the quotation will state what can be provided.

How to order

Send the catalogue number (C4X-253717), the pack size and the quantity to chao.lu@cato-chem.com. The reply covers availability, lead time, documentation and shipping for the specific lot, usually within one working day.

CATO Research Chemicals Inc. (Guangzhou CATO Technology Co., Ltd.)
