Specification sheet

Generated 2026-10-13

(4Z,7Z,10Z,13Z,16Z)-4,7,10,13,16,19-Eicosahexaenoic acid ethyl ester

CAS 2447131-67-9 · CATO catalogue no. C4X-28909

Structure - for identification

Molecular formula	C22H32O2
Molecular weight	328.49
Appearance	Light Yellow Oil
Storage	-80+/-5 degC
Purity	Typical 97.4%
Assay / content	93.2%
HS code	2916.19.00.90
Country of origin	China
InChIKey	IHAYEMKRKGGRQF-WMPRHZDHSA-N

About this standard

(4Z,7Z,10Z,13Z,16Z)-4,7,10,13,16,19-Eicosahexaenoic acid ethyl ester, CAS 2447131-67-9, C22H32O2 reference standard from CATO.

Pack sizes and lead time

10 mg	In stock
25 mg	10 days
50 mg	10 days

Quantities above the listed pack sizes are quoted on request. Prices are quoted per enquiry - no price list is published on this site.

Documentation on file

- Certificate of analysis - issued per lot, with the analytical basis for the assigned content or purity.
- Safety data sheet - supplied for the catalogue item and used for the transport classification.
- Chromatograms or spectra - tell us what your method or filing needs and the quotation will state what can be provided.

How to order

Send the catalogue number (C4X-28909), the pack size and the quantity to chao.lu@cato-chem.com. The reply covers availability, lead time, documentation and shipping for the specific lot, usually within one working day.
