N-Nitrosodiethylamine-d10

CAS 1219794-54-3 · CATO catalogue no. CCHM701644

Structure - for identification

Molecular formula	C4D10N2O
Molecular weight	112.20
Appearance	Yellow Liquid
Storage	2 degC ~ 8 degC
Purity	Typical 99.55%
Assay / content	98.7%
HS code	2845.90.00.01
Country of origin	China
InChIKey	WBNQDOYYEUMPFS-MWUKXHIBSA-N

About this standard

N-Nitrosodiethylamine-d10, CAS 1219794-54-3, C4D10N2O reference standard from CATO. Batch COA and MSDS available, shipped worldwide.

Pack sizes and lead time

5 mg	In stock
10 mg	In stock
25 mg	In stock

Quantities above the listed pack sizes are quoted on request. Prices are quoted per enquiry - no price list is published on this site.

Documentation on file

- Certificate of analysis - issued per lot, with the analytical basis for the assigned content or purity.
- Safety data sheet - supplied for the catalogue item and used for the transport classification.
- Chromatograms or spectra - tell us what your method or filing needs and the quotation will state what can be provided.

How to order

Send the catalogue number (CCHM701644), the pack size and the quantity to chao.lu@cato-chem.com. The reply covers availability, lead time, documentation and shipping for the specific lot, usually within one working day.

CATO Research Chemicals Inc. (Guangzhou CATO Technology Co., Ltd.)
