Brassicasterol

CAS 474-67-9 · CATO catalogue no. CCPE901415

Structure - for identification

Molecular formula	C28H46O
Molecular weight	398.66
Appearance	White Solid
Storage	2 degC ~ 8 degC
Purity	Typical 100%
Assay / content	97.5%
HS code	2906.13.10.00
Country of origin	China
InChIKey	OILXMJHPFNGGTO-ZAUYPBDWSA-N

About this standard

Brassicasterol, CAS 474-67-9, C28H46O reference standard from CATO. Batch COA and MSDS available, shipped worldwide. Pack sizes from 1 mg; request a quote.

Pack sizes and lead time

25 mg	In stock
50 mg	In stock
100 mg	In stock

Quantities above the listed pack sizes are quoted on request. Prices are quoted per enquiry - no price list is published on this site.

Documentation on file

- Certificate of analysis - issued per lot, with the analytical basis for the assigned content or purity.
- Safety data sheet - supplied for the catalogue item and used for the transport classification.
- Chromatograms or spectra - tell us what your method or filing needs and the quotation will state what can be provided.

How to order

Send the catalogue number (CCPE901415), the pack size and the quantity to chao.lu@cato-chem.com. The reply covers availability, lead time, documentation and shipping for the specific lot, usually within one working day.
