Disperse Blue 26

CAS 3860-63-7 · CATO catalogue no. CWLT600159

Structure - for identification

Molecular formula	C16H14N2O4
Molecular weight	298.29
Appearance	Dark brown to black solid
Storage	Room Temp.
Purity	Typical 29%
HS code	3204.11.00.00
Country of origin	China
InChIKey	OKZNPGWYVNZKKZ-UHFFFAOYSA-N

About this standard

Disperse Blue 26, CAS 3860-63-7, C16H14N2O4 reference standard from CATO. Batch COA and MSDS available, shipped worldwide.

Pack sizes and lead time

10 mg	3 days
25 mg	quoted on enquiry
50 mg	quoted on enquiry

Quantities above the listed pack sizes are quoted on request. Prices are quoted per enquiry - no price list is published on this site.

Documentation on file

- Certificate of analysis - issued per lot, with the analytical basis for the assigned content or purity.
- Safety data sheet - supplied for the catalogue item and used for the transport classification.
- Chromatograms or spectra - tell us what your method or filing needs and the quotation will state what can be provided.

How to order

Send the catalogue number (CWLT600159), the pack size and the quantity to chao.lu@cato-chem.com. The reply covers availability, lead time, documentation and shipping for the specific lot, usually within one working day.
